

# Bangz Salon & Wellness Spa Presents Vintage Fashion Show

Hosted by: Stylist, Educator, Visionary  
**Peter Orcinoli**

**H**ands down 2012 is going to be a bigger, better, and creative year. The Beauty Industry followers can tip their hat to Peter Orcinoli, who presented Bangz Salon and Wellness Spa, Sunday, January 15 at Bliss Lounge of Clifton New Jersey. This event was just a kickoff to a series of upcoming events that will feature new and upcoming salons & their “Head to Toe Fashions”.

“These events are connecting with local stylists bringing the New Jersey community together,” Orcinoli says. “It allows the salons and the stylists to

showcase their unique theme, brand and image”.

Orcinoli has much more to come. Not only was he the visionary and the host of the evening, but he shared his 25 year passion of disc jockeying. Music inspires Orcinoli creatively as a stylist; music, fashion, and style all come together at some point. With the rumor of partnering with Dieci Lifestyle Spa and Panico Salon & Spa for future

events, there’s no doubt the buzz flying around will be where and when the

next event will be held!

Bangz style creators, for the Vintage inspired Collection, is Rebecca, Traci, Julianna, Chris, Phyllis and Debra. Accompanying these stylists were their make-up team Gina, Nicole, Kat

and Lilly. **Richard Cronk** and **Dominick Sansevero** (owners of Bangz) and Israel Cronk (manager of Bangz) were also among the attendees, as they proudly and excitedly supported their staff, as they do for their similar monthly events.

Bangz partnered with a former stylist, who currently owns a vintage store, Speak Easy, located in Montclair, N.J. The creations and styles found within the shop were a perfect match for the vintage hair and make-up visions to come to life for the themed runway.

Some of the other familiar faces that came out to support were: Depasquale, Jerseylicious stars Miguel, Tracy, Anthony and Jeff, Solace Salon and Spa and A-List Nightlife. There were also two hit performances by CK and Chemistry who added to this amazing show. Stay tuned for

more up and coming industry shows, events and showcases.
