Alfresco

DESCRIPTION:

ALFRESCO Beard Oil
with Mandarin, Macadamia &
Abyssinian Oil 1oz

ALFRESCO is a high quality
beard oil inspired by nature
and the outdoors.

DIRECTIONS:

Apply a small drop of
ALFRESCO into your hand &
emulsify. Gently work the oil
into your beard. Groom and
style your beard as normal. Use
more drops if needed.

Personally I like to keep a short beard/stubble look, which can definitely feel pretty rough. Lately I have been enjoying trying out several beard oils to keep it soft and conditioned, and I have to say honestly that Alfresco is without question one of the best I have ever used.

The smell is just as the name suggests - outdoorsy, but a little bit sweet too with that hint of mandarin. Really smells fantastic. In terms of the consistency, the oil feels thicker than all the others I have tried, and as a result, I only need 1 - 2 drops to cover my entire beard. It's slick and applies very easily in just a few seconds, and I can immediately feel it go to work. It doesn't make things too shiny either, and absorbs nicely, so my beard ends up looking healthy and soft with a natural sheen.

INGREDIENTS:

Cyclomethicone, Cyclopentasiloxane & Phenyl, Trimethicone & Dimethiconol & C12-15 Alkyl Benzoate & Dimethicone Crosspolymer, Cyclohexasiloxane, Mandarin Oil, Macadamia Oil, Abyssinian Oil, Parfum, Hexyl Cinnamal, Linalool, Citronellol, Benzyl Benzoate. (please * any organic ingredients and note *Certified Organic)

Body

DESCRIPTION:

BODY is infused with the scents of Jojoba, Orange, Plum & Bergamot. These scents are inspired by exotic blossoms at the peak of their bloom. BODY contains Jojoba Oil, Grape Seed Oil & Vitamin E oil to condition the skin.

DIRECTIONS:

Pump a small amount of BODY onto a wet loofah or your palm and apply on skin. Indulge in the rich creamy lather. Rinse off.

This is hands down the best body wash I have ever used. I feel that body washes are one of those products that men often just go for the cheap stuff and don't realize the benefits of a high quality one.

Personally I have sensitive skin, and those cheap body washes often result in redness, dry skin, and even sometimes a slight rash. Really not a pleasant experience. With BODY, I don't have to worry about any of those issues - in fact, quite the opposite. This stuff makes my skin feel soft and hydrated - no redness, no rashes, just great feeling skin. It cleanses nicely without drying me out, and the scent is absolutely wonderful. It's really a unisex smell too, so this isn't just for men! The scent is hard to describe, but it really is something fantastic.

BODY lathers nice and smooth, and a little goes quite a long way. 1 - 2 pumps is more than enough, so I know this bottle will last me several months. I'm happy to finally have a body wash that actually makes my skin feel clean AND healthy, with no worries about sensitive skin problems, and an incredible scent to top it off. LOVE.

INGREDIENTS:

Purified Water, Ammonium Lauryl Sulphate, Cocoamidopropyl Betaine, Glycerine, Cocoa mide DEA, Phenoxyethanol, Grapeseed Oil, Jojoba Oil, Vitamin E Oil, Sodium Chloride, Fragrance, Ethylhexylglycerin, Citric Acid, Sodium Citrate.

BODY is free from parabens, ethoxylates, paragon, propylene glycol, petrochemical cleansers, phthalates, DEA and artificial colours.

Only Matte finish product for me

Adam Daniels on Dec 03, 2018

I typically use styling creams to style my hair, so I'd been using the product Shadow for the last few months. I've stayed away from any matte finish products for a long time because matte high hold products REALLY tend to tug my hair and it's pretty painful. With clutch I can finally have a nice looking matte hairstyle without the pain. I do have to put something in before blow drying to soften my hair a bit before applying but afterwards this stuff is an absolute dream to work with.

Also, whatever the scent is, I want it in a beverage I can do do a shot off because it smells incredible.

INGREDIENTS:

Aqua (Water), Petrolatum, Synthetic Wax, Microcrystallina Cera, VP/VA Copolymer, Oleth-5, Ceteareth-20, Kaolin, Glycerine, Cera Alba (Beeswax), Polyquaternium-11, Glyceryl Oleate Citrate, Caprylic/Capric Tri- glyceride, PEG-7 Glyceryl Cocoate, Jojoba Seed Oil, Citrus Medica Limonum (Lemon) Peel Extract, Propylene Glycol, Diazolidinyl Urea, Iodopropynyl Butylcarbamate, Parfum, Natural.

Clutch XL

DESCRIPTION:

CLUTCH XL is a matte styling clay, similar to the original Clutch product but with a firmer hold and added pliability. It delivers low shine, pliable texture and a very clean, masculine fragrance.

3.5oz size

DIRECTIONS:

Scoop out CLUTCH XL with finger and apply to damp or dry hair. Works best on dry hair as a finishing product.

Game Changing Product

Nicholas Sibilla on Dec 10, 2018

My hair is difficult..very difficult. I have thin hair which is insanely unruly so trying to grow my hair into a long slick back (think Jax Teller SOA) had been very difficult until I came across this product. I apply it into my damp hair every morning and then comb it into place and couldn't be happier with the results. I have tried SO many products and none compare to the hold and style options CLUTCH XL provides. 100% recommend picking this product up if you have annoying, difficult hair that you want to finally have control of.

INGREDIENTS:

Aqua (Water), Petrolatum, Synthetic Wax, Microcrystallina Cera, VP/VA Copolymer, Oleth-5, Ceteareth-20, Kaolin, Glycerine, Cera Alba (Beeswax), Polyquaternium-11, Glyceryl Oleate Citrate, Caprylic/Capric Tri- glyceride, PEG-7 Glyceryl Cocoate, Jojoba Seed Oil, Citrus Medica Limonum (Lemon) Peel Extract, Propylene Glycol, Diazolidinyl Urea, Iodopropynyl Butylcarbamate, Parfum, Natural.

Very pleasantly surprised

Dony on Jan 25, 2019

After about six weeks of using it:

Most have been said in guys' reviews below, so I would like to add one or two things which might seem a bit funny at first, but in real life they matter.

Before anything else, this is really the first hair product I ever used which can be easily and superbly reworked even after wearing a winter cap. All of you guys who live in regions where you simply have to wear winter cap for 3-4 months a year know very well what I am talking about. You apply a product, go to work or elsewhere, and when you take off the cap, with overwhelming majority of products it is nearly impossible to rework your hair with a satisfying result. But not with the PRE GAME. Its pliability is simply amazing.

Not speaking about the hold, matte finish and a very pleasant scent.

I take off my hat the Salon Guy, great job!

Finally, a serum that doesn't make your hair greasy and heavy! Whether applying this to damp hair before blow drying, or to dry hair afterwards – the results are amazing. Hair that feels super lightweight, totally smooth and free of frizziness, and no added oiliness or weight. For a person with a thick and coarse hair type, this product is a dream for me and makes styling so much easier, especially when using strong-hold or otherwise sticky finishing products afterwards. Plus, I really love that I can add a little bit of SLEEK later in the day if my hair is feeling dry and not worry about it adding any oiliness or heaviness.

If this is what it does after three times, I am super pumped to see what it does over months and years. I put off buy a product from The Salon Guy for a while because I thought the stuff was too expensive. Then I thought about all the stuff I buy from salons and the prices of them, so I decided to try something and see what I thought. I have tried many hair powders and didn't like any of them. They leave your hair sticky and feeling weird. After watching a video on The Salon Guy's Youtube channel, I decided to try the powder in the pump. I loved it from the first moment of using it. My hair looked even better the next day. I love a messy look and this stuff was just the right stuff. I wish it came in a bigger bottle but I will reorder it when I run out. I may get the other bottle the next time. I am going to tell my stylist about it when I go in for my next haircut. Maybe I can talk her into trying it.
