After using others claiming to be on top of the social media game, Stephen Marinaro (aka Salon Guy) popped up on our radar.

After reviewing his body of work on the usual social media platforms, we got together to discuss what Salon Guy could do for Salon Interiors.

Within maybe a day we were sent a proposal of different options pertaining to exactly what we discussed.

We were given Gold, Silver and Bronze levels so to speak packages describing in detail what each level would include.

Of course, we wanted Gold for Bronze pricing and ended up with a program that fit all our needs.

Whatever level you choose you get Gold service no question.

Our first day working together the "Salon Guy Team" arrives, who knew he comes complete with staff and enough video gear to film an action movie. He did mention he had lights and cameras but didn't realize he's that well equipped. Sure, beats an iPhone.

Never rushing, taking the time needed to capture enough content by the end of the day we were sent nearly a finished product that needed very little tweaking. The times after the first day he was spot on with the finished product.

Bottom line Salon Guy walks beyond his talk.

His body of work with Salon Interiors is all over our social media platforms. The exposure and like reactions by our viewers rose hour after hour.

If you are considering hiring a professional look no further.

Stephen comes highly recommended.

Cheers!
